## Teamwork Discussion Sheet

### Project

Student name	Student ID	Items covered	Contribution on each item	Signature
Ahmad Al Nabelsi	40209401	Some HTML and Javascript relating to student grades and assessment/exams averages.	Some unique IDs within html tags and a Javascript file that includes 4 functions to calculate student averages and assessment/exams averages. Worked on letter grade function in javascript to assign letter grade based off final NBgrade avg	AAN
Dante Di Domenico	40125704	Basic outline of user guide  General html	Somewhat less detailed user guide as a template	Dante

			without any real descriptions for each section	
Justin Selber-Hnatiw	40078439	Edited sections of the user guide	Contributed to the user manual and PHP code for database setup.	Justin
Sukhdeep Singh Sandhu	40132534	General html	Html tags	SSS
Sebastian Vega-Martins	40191151	Updated User Guide Updated Installation Guide	Third version of user Guide	SVM
Joy Anne Valdez	26339379	Set up and implementation of some PHP files so that they sync with the database.	Fixed the implementation of login and sign up pages to sync with the database.	JAV

## Discussion:

Please write a small paragraph discussing teamwork (who did what, how much, was the work allocation fair, did each member respect commitments and deadlines...).

Joy mostly covered the implementation of the login and sign up PHP files. Her contribution to the project was fair. Ahmad covered the javascript features which included functions to calculate the average grade of each student and averages of assessments and exams. Ahmad also worked on a letter grade function in javascript that takes number grade averages to assign letter grades to students. His contribution to the project was fair, as he was able to implement the average calculation of the table. Sebastian, Justin and Dante covered the user guide. Their contribution was fair, as it explains the purpose and features of the website. Sukhdeep covered the basic HTML tags and added some sample data to the featured table. His contribution to the project was fair.
